We never forget you have a choice

The quintessential character home on a quiet street conveniently located just a short walk to the downtown core of Nanaimo. This home has enjoyed many updates in the past couple of years including some new exterior paint, some new thermal pane windows, new front door, new 200 amp service, blown-in insulation, and new paint throughout while still maintaining its original character. Upon entering the home, you will immediately love how inviting and bright the home is with its high ceilings and many windows. Much of the original hardwood flooring is still in the home and in great shape. The living room features coved ceilings, plaster walls, and a wood burning fireplace with a fan. From the living room, you enter into a lovely dining room with built-in shelving and enough room for a large table. The home has two kitchen areas, one a butler's area overlooking the back yard and the other is a huge eat-in area with a beautiful ocean view just waiting for your ideas. The bathroom has been updated with new flooring and a low flow toilet. One half of the basement is partially finished with an area that was used as a bedroom. The other half is a workshop with a bonus walled off storage area.
